W. CURRAN CHARGED MANSLAUGHTER

William Roddy of Delia was killed and William Curran of Craigmyle was slightly injured when the latter's automobile turned over several times about a mile from Rockyford last Wednesday afternoon.

Curran, proprietor of the Empire Hotel at Craigmyle, was returning home from Calgary and just before the accident occurred had met Roddy on the road and picked him up. Curran was said to be intoxicated at the time.

The car approached a bad turn and skidded in the loose earth and the momentum hurled it in the ditch, the car turning over several times and both men were pinned beneath the car. A passing motorist tried to render aid, but as he could do little he went to Rockyford for Dr. Hewson. Both men were taken from the wreck and it was found that Roddy was dead. Curran was unconscious and was removed to Rockyford, where it was found that he was not badly hurt.

The accident was reported to the Alberta Provincial Police and Constable Moriarity left from Carbon for the scene of the accident, while Dr. Gibson, coroner, left from Drumheller. Constable Moriarity arrested Curran on the charge of being intoxicated while driving a car. On Thursday William Curran was arrainged before Magistrate L. O'Connor of Drumheller on two charges, that of Manslaughter and of being intoxicated while in charge of a motor vehicle.

No evidence was taken and the preliminary hearing was set for May. 8. Curran was released on $10,000 bail.

SCREEN CAMERAMAN TELLS OF MOST DANGEROUS JOB

Cameramen are called upon to perform many exciting stunts in making motion pictures, but, according to Burton Steene, the most thrilling experience was that, when, from the "bombay" of huge bomber, he filmed twelve full service charge aerial bombs as they were dropped on a reconstructed French village, all twelve scoring direct hits.

Steene performed this feat in the photographing of "Wings," Para mount's wonder air picture, which the Carbon Theatre is showing on Friday and Saturday of this week.

"I believe I drew one of the most difficult assignments in the filming of 'Wings,' " says. Steene. "I was hoisted and squeezed in the bomber compartment containing 1200 pounds of T.N.T. I was in a space so small that I couldscarcely move my legs in a kneeling position and I kept thinking what might happen if anything went wrong with those bombs or we had to make a forced landing.

"A thin rope was fastened to my left arm and led to the cockpit where Capt. S. R. Stribling was in Command. A signal of two sharp pulls was the word to tell me that the bombs would be released. I could not see what was coming, hence the signal, and naturally the scene would be a short one as the ship was doing 90 miles an hour.

"Capt. Stribling gave the two sharp tugs. Looking through the finder in my camera, it was my job to pick up the bombs as they fell. I could neither see nor hear them until they came into the finder."

BASEBALL

CARBON WINS FROM ACME

The second baseball game of the season was played at Carbon on Wednesday last between the Acme Junior baseball team and the Carbon Juniors Carbon winning by a score of 20-10. The play throughout the entire game was a considerable improvement over the game that was played a week ago here and we all look forward to some good ball games here this suramer.

The following is a list if the players on both teams

Acme—I. McCook, M. Purvis, E. McCook, S. Hood, J. Smith, B. Lepty, E. Young, Jim Fraser, L. Rinn.

Carbon—Jack Spence, R. Wells, E. Morfitt, S. Hay, B. Ramsay, R. Lynn, N. McClure, B. Galech, G. Ramsay.

CARBON TENNIS CLUB TO HAVE LOCAL TOURNAMENT

The executive of the Carbon Tennis Club has planned a Mixed Doubles competition to play for prizes donated by the secretary, Mr. W. A. Braisher. The draw will take place on Wednesday, May 22nd, and all members who have paid their club fees by that date will be eligible to compete.

ANNUAL MEETING CARBON GOLF CLUB

A meeting of the Carbon Golf Club was held in the Drug Store last Friday evening for the purpose of electing officers and deciding whether or not a golf course would be had in Carbon this year.

The following officers were elected:
President, G. G. Peters.
Vice-President, F. J. Bessant
Sec.-Treasurer, E.J. Rouleau.
Captain, Len Poxon

The Executive committee is to be composed of the above named officers and J. J. Greenan.

On the old golf course G. F. McGregor intends to break about fifty acres for green feed and it will be impossible to use the present course this year. It was decided to go over the grounds and possibly other land in or around town with a view of selecting a site for a golf course and we understand that everything is favorable for a suitable course.

Mr. Williams, the Health Inspector from Edmonton, paid an official visit to Carbon on Tuesday.

A Mother's Day Tea will be held in the Farmers' Exchange Hall on Saturday afternoon, May 11th, by the Ladies Aid of the Carbon United Church. Everyone is cordially invited to attend.

Work is progressing favorably on the excavating on the new pool hall and also on S. J. Garrett's garage.

In the Easter number of "Chinook," the official organ of Mount Royal College, there is an article written by Hugh MacDonald of Carbon, under the caption of"Valedictory." This article is well written and was chosen for publication out of a large number of entries. In this booklet is also a number of photographs of the different athletic teams and Hugh's photo can be distinguished in the Hockey, rugby and basketball pictures, he having taken an active part in these sports during the past term.

LITTLE ITEMS OF LOCAL INTEREST

Gottlieb Ohlhauser has purchased a new Imperial "80" Chrysler Sedan through the local dealer, T. R. Olive.

The management of the Carbon Theatre has been successful in obtaining that great epic of the World war, "Wings," which will be shown on Friday and Saturday, May 10 and 11.

J.J.W. Grenier returned from Edmonton last Thursday, where he has been studying law.

Read of the special offer that the Frico store is advertising in this issue of The Chronicle.

Mrs. W. Poxon was a Calgary visitor last week.

Sid. Willis spent Sunday at his home in Crossfield.

Gordon Livingstone of Olds arrived last week and is staying with relatives, Mr. and Mrs. H. A. English. He has accepted a position in the hardware department of the Farmers Exchange.

The Catholic church is to receive a coat of paint. J. T. Gilbert has the contract.

Mrs. Neil Cunnington left on Monday for California.

Miss Annabelle Ramsay, who is attending business college in Calgary, is reported to have contracted the Scarlet Fever.

The Crown Lumber Company unloaded a car of cement this week for S.J. Garrett's new garage.

J. T. Gilbert has given the Builders Hardware its final coat of paint.

Sunday, May 12th is Mothers' Day and special services are being held at the Carbon Sunday School. All mothers are asked to be present and it is to be hoped that many will be there.

Extra pants free.—Read the particulars in the Frico Store advertisement.

Mr. and Mrs. Alfred Fuller and son have moved into Len. Hay's house.

Mrs. J. Hammel went into Calgary on Monday to meet her daughter, Mrs. O. Kellar, of San Francisco. They returned to Carbon Monday evening.

What Will *you do*

When *your* Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks, Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

Fletcher's CASTORIA

Staining Shingle Roofs

Use a good shingle stain.

Before beginning the work, see that the shingles are dry and clean.

As a matter of economy it is better to dip shingles in bulk before laying them. Dip them in and out as quickly as possible and wipe them off by rubbing across a stick covered with burlap. Then allow them to drain off in a drip trough. They should be stained for only about two-thirds of their length. Stain the exposed ends only.

Paint is best for old, weather-beaten shingles, blackened by age and exposure. The priming coat should be prepared as directed for house painting and should be brushed out well with careful attention to the ends of the shingles. The second and finishing coat should be applied as it comes from the can.

Minard's Liniment—good for tired feet.

Simile—Her face was like five miles of detour.

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred. P. Averill, 136-12th Ave., Calgary, Alta., writes:—"I was bothered so much with my heart I could not sleep. I would waken up in the night screaming, and my heart would start pumping and pounding. A neighbor lady told me to try

MILBURN'S HEART AND NERVE PILLS

so I started taking them and I can truthfully say I am a different woman. Altogether I only took two boxes."

Price 50c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1784

Laying and Preserving Linoleum

The ideal method of laying linoleum is to cement it over deadening felt paper, which should first be pasted to the floor with any standard make of linoleum paste. This overcomes bulging and stretching, or opening up of seams and cracks along the edges. It also prevents water from getting underneath the linoleum and in that way prolongs the life of the flooring.

Linoleum laid in this manner becomes a solid, permanent, elastic floor. It cannot bulge or stretch. The felt paper foundation absorbs all expansion or contraction that may take place in the wood floor and makes the linoleum more durable. It also allows the linoleum to be removed without difficulty or damage should the necessity arise.

The most approved manner of treating linoleum has been found to be waxing. The wax should be carefully rubbed on and the floor polished like hardwood. An occasional treatment of this kind will keep the linoleum in an immaculate condition.

A damp cloth removes all soil from the waxed linoleum and it will be found that scrubbing is entirely unnecessary.

In case there should be obstinate marks of soil on waxed linoleum, they can be removed with a pad of fine steel wool without scratching or damaging the linoleum itself.

Varnishing is best for printed linoleum, as it brightens and preserves the original pattern and makes the linoleum easier to clean. A coat of good varnish or white shellac will also preserve cork carpet.

GOOD IN EVERY WAY

Baby's Own Tablets Banish Babyhood and Childhood Ailments

A medicine that all mothers praise—one good in every way—one that will quickly banish the minor ills of babyhood and childhood is the medicine to keep in the medicine chest; to always have on hand in case of emergency. Such a medicine is Baby's Own Tablets—they are helpful at all times. They are a mild but thorough laxative which by regulating the bowels and stomach banish colds and simple fevers; correct constipation and indigestion; relieve colic and diarrhoea and make the cutting of teeth easy.

Thousands of mothers use no other medicine for their little ones. Among them is Mrs. J. H. Bromley, Westmeath, Ont., who writes: — "I have four children and whenever any of them are ill I always use Baby's Own Tablets and have found them good in every way. I would not be without the Tablets and would also like your little booklet 'Care of the Baby in Health and Sickness.'"

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Female Pied Piper

Woman In London Declares Rats Are Charming Creatures

A woman's love for rats has led to a certain quarter of London being so overrun with the pests that official action is to be taken. This female Pied Piped declares that rats are charming creatures and she places food in her garden for them every morning and evening. Neighbors have protested so loudly that efforts are to be made to capture the rats by smoking them out. There is nothing under the existing law to prevent persons feeding any kind of animals or vermin on their own ground.

Tangled Titles

Fletcher: "How did the jury come out in that Army Post case?"

Barker: "They disagreed on the question of titles."

Fletcher: "What do you mean?"

Barker: "They said they couldn't hold a Colonel in a Major crime arising from a General riot occasioned by a Private quarrel!"

London has more than 20,000 bobbies—English policemen.

Minard's Liniment for cuts and bruises

SUNDAY SCHOOL LESSON

MAY 12

THE EARLY MINISTRY OF JEREMIAH

Golden Text: "We must obey God rather than men."—Acts 5.29.

Lesson: Jeremiah 1.1-10; 6.10, 11; 8.18; 9.2; 26.1-24.

Devotional Reading: Psalm 26.1-7.

Explanations and Comments

Jeremiah's Call and Consecration, 1.1-10.—Jeremiah was the son of Hilkiah (not the Hilkiah who found the book of the law, our last lesson), a priest in the little town of Anathoth, near Jerusalem. Jeremiah's name ("appointed by God"), and his father's ("Jehovah is my portion"), are tokens of the family's loyalty to the God of Israel, "at a time when the outburst among the Jews of a very different class of personal names betrays on the part of many a lapse from the true faith, and when the loyal remnant of the people were being persecuted by King Manasseh." In the thirteenth year of Josiah's reign (about 626 B.C.), Jeremiah became conscious of a divine call to the prophetic office. It is natural to understand that Jeremiah had long meditated upon his country's sins, had felt impelled to witness against them, but was most reluctant to undertake the task. The inward struggle which took place in his sensitive and shrinking heart when something different from his ordinary consciousness made him certain that he was destined to be the prophet of woe, he tells in the form of a dialogue between God and himself.

Jeremiah speaks: "Ah, Lord Jehovah! behold, I know not how to speak; for I am a child." Jeremiah was not a child in years, but in consciousness of ability. He distrusted himself at the moment of his call. Once it was a Moses, then it was a Gideon, then an Isaiah, and now a Jeremiah, all of whom re-echo the plaint of their own unfitness. But although their first reaction was like that of Hamlet when he cried:

"The time is out of joint;—O, cursed spite!
That ever I was born to set it right."

yet with them all there was no delay in rendering themselves more fit for their tasks.

"There is a lesson here for all who feel in any degree the tyranny of their outward lot. There are hard facts against which we chafe and fret. We are to set to tasks which we would fain refuse, or we are placed in surroundings which we think unsuitable. We are all tempted to turn to the easy ways of escaping the burden. We can learn from Jeremiah the paramount claims of duty. If it be the will of God that you must tread a path that you choose not, from which the weak heart shrinks, know that the blessedness promised by Christ is yours, and cherish the thought of a closer communion with Him who also was made perfect through suffering."—Hugh Black.

Jehovah speaks: "Say not, I am a child; for to whomsoever I shall send thee thou shalt go, and whatsoever I shall command thee thou shalt speak. Be not afraid because of them; for I am with thee to deliver thee." "Jehovah put forth His hand and touched my mouth;" thus Jeremiah years afterward expressed the thought of how burning were the words of Jehovah which seemed to come to him.

Requisite On the Farm. — Every farmer and stock-raiser should keep a supply of Dr. Thomas' Eclectric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Northern Air Ports

Settlements In Northern Manitoba To Have Air Mail Service

Manitoba's northern settlements of Oxford, Godsland, and Island Lakes will be added to the growing chain of northern air mail points of call, Hon. P. J. Veniot, postmaster-general, announced in the House of Commons.

Mr. Veniot stated that arrangements had been completed for the conveyance of mail to and from these northern points once a week by aeroplanes of the government forestry patrol at Norway House, at the north end of Lake Winnipeg.

Australia supplies one-fifth of the world's supply of wool.

Floor Coverings

Next to the walls and ceiling, the floor presents the largest area in the room, and consequently its covering should be well thought out and carefully selected.

The floor, as well as the ceiling, is a plane which holds the four walls of the room together. While the walls form the background for furnishings, the floor is the foundation. A good foundation is always essential to any well-designed decorative plan.

Linoleum floors are attractive, resilient, shock-absorbing, durable, warm in winter and cool in summer. Waxing linoleum gives it a softer, smoother texture and preserves it indefinitely.

For the average room, a rug with a plain ground and a neat border, or neat all-over pattern of floor covering, is more desirable than one with a decided pattern.

Large and bold patterns have a decided tendency to make the room look smaller. The patterns are apt to jump and as the ideal floor covering furnishes the foundation for furnishings it must be made to keep its place on the floor. When there is a great deal of furniture, a boldly figured floor covering gives a confused appearance to the room and destroys its restful, harmonious appearance.

Boldly patterned rugs usually come in strong colorings, and this also makes them exceedingly difficult to fit into a soft, harmonious color scheme.

Figured floor coverings, however, have their place. In rooms which are sparsely furnished or where the furniture is of a light and simple type, they add to the "furnished" appearance of the room. That is, they take away bareness. In large rooms which are sparsely furnished, figured rugs are particularly advantageous.

In dining rooms, it is usually preferable to have a figured floor coverings, as it does not show soil or stain so quickly as plain floor coverings. In bedrooms where the furniture is of a light type, a figured floor covering adds to the comfortable appearance of the room. In sleeping porches, enclosed porches or breakfast rooms, where the furniture is not usually plentiful, either tile effects or a bold figured floor covering adds greatly to the finished appearance of the room.

It is a wise plan when a highly figured floor covering is used to use hangings or upholstery material in a plain color or in a neat and unobtrusive all-over pattern. On the other hand, if the hangings or upholstery is figured, plain floor coverings are best. Too many figured patterns in a room create the feeling of motion and the effect produced lacks restfulness. Too many plain surfaces, on the other hand, tend to make a room look bare and uninteresting. Some figured material should be used in every room, but it should be balanced with a proportionate quantity of plain material or surfaces without design.

In selecting a figured pattern, the colorings must be considered first. For general use, strong or vivid colors should never be selected. Small all-over patterns are, in most cases, preferable to large sprawling ones. The tone of the floor covering should always be deeper than that of the walls or furniture, as the ground we walk on is always darker than the sky or the landscape. Light-colored floor coverings are exceedingly difficult to fit into a harmonious scheme.

CHAPTER XVIII.—Continued

The rush of wings sounded high in the air as wild ducks passed in swift flight on their yearly pilgrimage to the south. Occasionally a flock would lower in gradually narrowing circles to land with a splash in the restful waters of the lake, then to stretch tired wings, the while bobbing their heads and quacking contentedly. Flocks of geese passed in wedge-shaped formation, their honking coming faintly from a dizzy height. A flock of Arctic swans, skimming so low that the crisp rustle of their wings could be heard, landed in the centre of the lake with a great commotion. There with their beautiful necks proudly arched they floated like white ghosts throughout the night. The red and yellow leaves, like gaudy curtains draped the deciduous trees. The wild crab-apple and high-bush cranberry hung frozen on the naked branches. The sun was surrounded by a ring and shone weakly through a misty haze. The unmistakable breath of the north wind was in the air.

Old John took his traps down from the loft and oiled them. A patch was found needed to a worn mocassin, and new laces were inserted in his snowshoes. "Winter's comin', ol' timer, and we're going to have a heavy fall of snow," he mused to himself. For two days Nature gave warning, then on the second night the storm came.

A roaring wind came bellowing from the north, lashing the waters of the lake to foam, tearing at Donald's cabin with the strength of invisible giant hands, and howling through the forest with shrieking wails. Gust came upon gust with increasing strength, and in the short lulls could be heard the swish of the sleety snow against the windows.

The big trees creaked as they swayed in the gale, and with a loud groan, as if in mortal pain, a huge forest monarch, as its roots gave way, fell crushing down the smaller trees to smite the earth with a resounding crash.

The wind went down through the night, but the snow fell steadily. When Donald opened his door next morning he looked out on a new world. The wizardry of frost and snow had given the earth a blanket of white that was eye-blinding in its brilliancy under the bright morning sun. The keen frost had locked the lake tight under a coating of clear ice.

CHAPTER XIX.

With a fond hope that he would receive word of the Wainwrights, Donald eagerly awaited the coming of each mail; but after a month of disappointment he became less sanguine, and threw himself desperately into work in a vain attempt to allay his heartache.

During the long winter the mill continued operations in spite of heavy snows, the roads being kept open by the continual traffic.

Janet came twice with gay parties to enjoy the ski-ing and snowshoeing. She found that she loved Donold, and decided that any uncertainty as to his past was as nothing when weighed against her need of him. Bitterly she reproached herself for allowing her pride to estrange him from her, and with all the arts of a beautiful and cultured woman she sought to regain the power she once held over him.

On one occasion, when Janet mentioned his "wood-sprite," she saw a rapt look in his eyes and caught her breath sharply. The very thought of losing him stabbed her like a knife-thrust.

With the coming of March a change came over the earth. Winter shivered and reluctantly loosed his hold. Gentle showers and warm winds from the south honey-combed the ice on the lake; snowdrifts faded away, and the frost-bound soil gave forth earthy odours to replace the keen smell of the snow.

One morning a song sparrow under Donald's window sent out its sweet "chip - chip-che-char-che-wiss-wiss," and from the top of a swaying alder a wren carolled his joy of living in full-throated tones that said that spring was here. Stirred by the warmth and cleaving buds, the frogs came from the mud, where they had lain dormant all winter, and with swelling throats and bulging cheeks sent out their cheerful "k'tun, k'chunk."

Mists covered the lake, and in an open spot near the mouth of the creek a flock of ducks disported themselves happily. The sun grew higher with every dawn, gaining strength each day until its warming energy spread the beauty of colour and fragrance over all.

One afternoon, when the air pulsated with the song of birds, and newly-opened buds burdened the atmosphere with perfume, Donald walked up the hill to Wainwright's cabin.

Scores of birds, returned from there yearly pilgrimage to the south, flitted about the deserted buildings, but there was no golden-haired girl with a welcoming smile to greet them. Rivulets from the melting snows had gouged channels in the once neatly kept plots of wild flowers, and the roof of one of the smaller huts had fallen in.

Donald pushed open the door of the main building and entered. The air felt chill and dank. He experienced a quick depression of spirits, and his heart ached as he surveyed the gloomy interior. He shivered as a pack-rat scuttled across the floor and disappeared under Connie's bunk. With a heavy heart he returned to the bright sunshine, sat down, and gave himself over to a period of melancholy retrospection.

His mind went back to his first meeting with Connie, then on through the many thrilling episodes of the summer. She belonged to high mountains, to deep forest glades, to companionship with the birds, flowers and trees of God's wild outdoors. She would never be content with the bad air and the cramped conventions of cities. He suddenly remembered the words she had used that day by the stream near her nest in the cedars. He seemed to hear her sweet, hesitating voice with its pleasant English accent.

"And," she had said, "six months out of every year I'd come right here and live in these mountains."

"She'll come back," he said aloud. The thought cheered him. "She'll come back," he repeated to Andy that night.

"I 'ope so, Donnie."

A week later, Robert Rennie, accompanied by his daughter, arrived at Summit Lake. The owner was in high spirts. "I am pleased with the excellent work you are doing here," he said, as he placed a hand in friendly fashion on Donald's arm. "The mill is a success—a huge success—and I know who deserves the greater share of the credit!" He smiled up at Donald. "Next week," he went on, "an event of importance to the lumber industry takes place. The Government is to entertain a party of Eastern lumbermen. I will admit that I was proud when the chief forester called at my office to tell me that this mill had been selected as the most modern and efficient in the Province, and requested permission to bring the Government's guests here.

"They are to stay here a few days, but you will not be inconvenienced, as the train will be equipped with dining and sleeping-cars, loaned for the occasion by the C.P.R. I will come with them, but I am leaving it to you to arrange for their entertainment and to see that everything is in tip-top shape for their arrival."

As Robert Rennie was leaving the next morning he turned to Donald. "By the way," he said casually, "I have decided to add a yearly bonus to your salary, based on the profits of this mill. I have made it retroactive from the time you took charge." Before Donald had time to express his thanks his employer swung aboard the train.

Expressing a desire to be at the lake on the arrival of the excursion, Janet remained.

On the day set for the visit of the Eastern capitalists the sun rose in radiant promise of a typical June day. The leaves were now fully matured, and the willows and maples rustled under the soft, warm winds. All the valley was clothed in a verdant, quivering, gently pulsating life.

The long train drew slowly into the depot. Its occupants poured out until the small platform was filled to overcrowding. Robert Rennie, accompanied by a slender man dressed in a tweed suit and cap, pushed his way through the crowd to Donald's side.

Donald greeted his employer, then glanced casually at Mr. Rennie's companion. His eyes widened. "Mr. Wainwright!" he gasped.

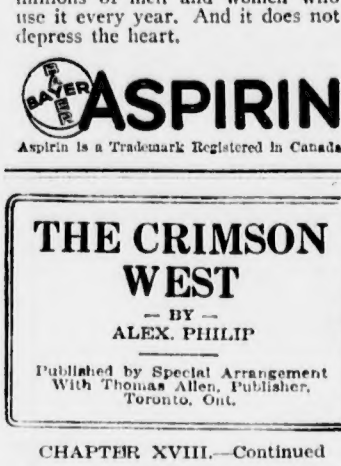

Wainwright laughed happily as he wrung Donald's hand.

"Is—is Con—Miss Wainwright with you?" stuttered Donald.

Then he saw her.

(To Be Continued.)

The average horn will blow 150,000 times before wearing out.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—*Evelyn Bourque, 132 Alma Street, Moncton, New Brunswick.*

Auction Sale Of School Lands

Nearly $400,000 was realized by the auctioning of school lands, all within a radius of forty miles of Regina, the other day. The number of quarter sections sold were 196 out of 381 listed for sale, and the average price realized was $12.80 an acre, the total amounting to $398,434.00.

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Eclectric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

FLIES OR BABIES—WHICH

The above arresting title to a brief but very telling little pamphlet issued by the Metropolitan Life Insurance Co. gives a very real meaning to the "Clean Up" week which is being urged on all communities at this season.

Filth and garbage of all kinds accumulate during the winter months. With the coming of the warm days the house fly appears. It is born in filth, lives in filth and when not busy on butter, milk, preserves or the baby's bottles, is feeding in filth.

It is estimated that the flies are responsible for more deaths than any single known disease. Babies are its particular prey since the infantile diseases are carried largely by the pest. Get rid of it by cleaning up all filth and garbage. Make a habit of burning all refuse. Give it no chance to breed. Screen doors and windows at the first hint of warm weather, should be put on. Two flies at the beginning of the season will be responsible if allowed to live, for millions of other flies, they breed so rapidly. So clean up, burn up and screen doors and windows. Is it to be flies or babies? The choice is yours.

MOTHER'S DAY

God in the eternal realm beyond the sky
An angel saw as she was passing by,
Noted her form, the beauty of her grace,
Saw love divine glow upon her face.
She is the one I need upon the earth,
A mother to the sons of men at birth,
And bring to them a peace that I shall give.
To show them all the way, forever more to live,
He sent the Thought, then drew her to his side
Behold I make to thee, the Holy bride,
A love so pure, so sweet, so true as thine,
Shall live on through the age of endless time.
Thou hast a heart, a soul, as well as mind,
Thy work shall be the broken hearts to bind,
Nor heed the race, the class or creed,
But a mother unto all, a friend indeed,
All things upon earth give I to thee,
If thou wilt dwell in love and unity,
And be a light to shine that nevermore shall die
With mother love for all, while the days are going by.

The May issue of Rod and Gun and Canadian Silver Fox News, the well known Canadian outdoor magazine contains a very interesting selection of stories and articles. Among these are the regular contributions of Bonnycastle Dale, Robert James and J. W. Winson of established merit, while in addition to these there are several splendid hunting, fishing and outdoor stories by other authors.

The special departments on angling guns and ammunition, outdoors and kennel are packed with highly interesting material for all outdoor lovers and the Canadian Silver Fox News section with instructive articles concerning this great industry by well known authorities.

Rod and Gun and Canadian Silver Fox News is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

THE BEAR AND LITTLE TIM

Us lumberjacks held session by the bunkhouse stove at night, with Bill Maguire relatin' his tales of blood an' fight. Old Bill, the Mighty Hunter, would swear the stuff was true an' held the floor unchallenged by any of the crew. His voice was right convincin' an' his face was kinda pious. With yarns like this he ruined up the fame of Ananias:

"That bull moose come a-tearin' and a-rippin' after me so I drops my gun an' shinnied like a squirrel up a tree. An', holy jumpin' jackfish! you ought to heard me holler—he romped up on his haunches an' DID HIS HIS BEST TO FOLLER! His eyes wus red an' peevish an' he breathed like livin' fire, he shure was aggravated at poor old Bill Maguire. Me bullet musta crazed him when it got him on the neck. It was chilly an' onpleasant up that poplar tree, by heck!"

Here Bill was interrupted by a member of the crew. (Tim Harley only lately had come to Monitou.)

"That yarn of yours reminds me of the old Alaska days," says he, "when I was mushin' with Gold Dust Charlie Hayes."

Old Bill was sure astonished when the stranger butted in. "To hell with you!" he shouted, "an' whatever lies ye spin."

"I may have lied a little in my unrepentent youth," says Tim, "but here's a story an' its holy Gospel truth"—

." 'Twas away up in Alaska in the days of ninety-eight when me an' him was workin' outa Skagway haulin freight. We figgered on the wages to make a stake by Spring so we could hit the upper criks and see wat Luck would bring. One day we stopped to rest the dogs at Larsen's loggin camp, for signs of Spring were showin' an' the trail was soft an' damp. Thinks I—I'll just prognostricate around the camp a ways. You never know where gold may be—says I to Charlie Hayes.

"We'll take along a rifle or a pup,' says he, 'at least." But me, I only laughed at him and started walkin' east. I tramped for half a mile or more without a fear or care when suddenly I comes upon a big godawful bear.

"My heart got palpitatin' to an awful jazzy jig as he slowly comes towards me an' ye gods! but he was big. I started backin' slowly but he moves a little faster. So pretty soon the both of us was speedin' like disaster. 'An he was gainin, gainin, with me as good as dead when, lookin' up, I sees a branch across the trail ahead—full THIRTY FEET above the snow, projectin' from a pine. By now the bear behind me was breathin' on my spine! (The boys, when they had shot him, they found within his jaw the chewed an' missin' tailpiece of my old mackinaw.)

"I jumped as he was grabbin', an' Holy Kuskoquim! that grizzly passed below me as I headed for the limb."

Tim Harley stopped his story an' he looked into the blaze. The boys sat round an' waited in silent, shocked amaze.

"What happened? Did you make 'er? at last a swamper said. But Tim, he kept on gazin' an' sadly shook his head.

"No, boys," says he, "I didn't, an' it's too tarnation bad. 'Twould a been a dandy story if I could say I had But I have a reputation for the truth I must uphold. I wouldn't tell a rotten lie for all Alaska's gold.

"No, sir," says Tim, "I missed 'er." He assumed a pensive frown. "I missed that limb a-goin' UP, but I caught 'er COMIN' DOWN."

FOR NINE YEARS GAS RUINED HER SLEEP

"Due to stomach gas I was restless and nervous for 9 years. Adlerika has helped me so that now I eat and sleep good."—Mrs. E. Touchstone.

Just ONE spoonful Adlerika relieves gas and that bloated feeling. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—A. F. McKibbin, druggist.

WHAT TO DO

If you're feelin' tired and blue
And you don't know what to do,
Do nothin'.
If your appetite's not right,
And your waistband's gettin' tight,
Stop stuffin'.
If your plans are awry,
And you feel you want to cry,
Go fishin'.
If you can't see far ahead,
And wish that you were dead,
Stop wishin'.
If you know you talk too much,
And your neighbor's feelin' touch,
Stop talkin'.
If your nerves are all askew,
There is one good thing to do,
Go walkin'.
If you're runnin' into debt,
And can't pay for what you get,
Stop buyin'.
If you'd like to reach the top,
And are just about to stop,
Keep tryin'.—Grenville Kleiser.

OVER 300 WHALES TAKEN BY CANADIAN VESSELS

It may be news to a good many people but whaling adds a tidy little sum every year to the British Columbia trade totals. Last year 305 whales were taken by the fleet of six steamers operating from the two whaling stations on the British Columbia coast and were used in the production of fish meal, fertilizer and oil. Figures covering the value of the 1928 production have not yet been finally revised by the Fisheries Branch of the Department of Marine and Fisheries but in 1927, when the number of whales killed was 47 less than in 1928 the value of the meal, fertilizer, oil and whalebone obtained was $241,488.

Of the 305 whales taken last year the largest number, 140, were of the finback variety. Eighty-three sperm whales were killed, 47 sulphur, 21 humps, 13 of the sei variety and one lone bottlenose.

Now These good USED CARS must Go

Look 'em over

JUST when we think our stock of Used Cars is away down . . in come a lot more, taken in on the Spring deliveries of Outstanding Chevrolets. Radio--An Agency For Peace

The sittings now being held by the Royal Commission on Radio appointed by the Dominion Government to study the whole question of broadcasting, and make report to the Government as to best policy for Canada to adopt in the national interests of the whole Dominion, is having the effect of directing attention from the purely local and entertainment features of this latest of great modern discoveries and causing people to appreciate more fully the tremendous possibilities of aerial communication, both in a national and international sense.

While undoubtedly there is a feeling of regret in Canada that, because of natural causes, it is much easier for people in Western Canada to "listen in" on stations in the Central Western States than it is to "get" stations in Eastern Canada, and for Eastern Canadian listeners to receive the programmes broadcast from New York, Philadelphia, and other Eastern United States cities than it is for them to "tune in" on Western Canadian Stations—a condition for which it is hoped the present Radio Commission can find some solution, the fact remains that a closer community of interest between Canada and the United States, and consequently a still better understanding, is being developed by means of the radio. And community of interest and understanding is the greatest of all bulwarks to Peace.

But to many in this country it will come as a welcome surprise to learn of the great strides made by radio in Europe and the effect it is having in promoting greater understanding among the diverse nationalities and languages of that war-afflicted continent. It is almost inconceivable that within less than eleven years of the signing of the Armistice ending the Great War, the radio should be used in Germany and England to teach the people, not merely school children but adults, the French language; that international "hook-ups" of Germany, Poland, Austria, Hungary, France, and other countries are being regularly carried out, so that people in Paris and Warsaw can listen to German concerts in Berlin and Hamburg, and the German people can enjoy the opera in Paris, or a great symphony orchestra in Vienna or Budapest.

There are some good people in Canada who still retain the old fashioned idea that it is unpatriotic, and liable to undermine British institutions in this country, if children are taught in our schools to speak and read French, German, or any language but English. In entertaining such ideas Canadians are far behind the times; they are not nearly so far advanced as they are in England and other countries where the learning of foreign languages is compulsory. If every Canadian child, whether of British or French descent, was obliged to learn both English and French, Canada would in a generation become more powerful, influential and prosperous. It would open to our people the rich literature of both races; it would give us greater prestige among all nations; it would help to promote our export trade in all the markets of the world. In this Canada, by reason of its two great races, has an opportunity no other nation enjoys, yet we are not only neglecting it, but many people urge that it would be disloyal to our British connection to encourage it. Yet Britain herself is doing it.

It is predicted that within three years, five years at the most, Canadians will, through the development of national broadcasting at home, and the use of the beam system of wireless across the ocean, be able to sit in their homes and "listen in" on the finest programmes in the world broadcast from London, Paris, Berlin, Vienna, and other European centres of culture, art and music.

We can now speak with Europe by telephone from the heart of Canada's prairies, and the day is fast approaching, so those in a position to know authoritatively state, when by radio we will be in more or less constant communication with Europe, receiving the best they have to offer in public addresses, vocal and instrumental music, and the important news of the day. In turn, Canada will be brought equally close to them. And, in all probability, "seeing" Europe and European happenings through the instrumentality of the radio will more or less rapidly follow "hearing," just as, in reverse order, the "talking" picture has followed the silent movie.

And these things are all to the good, in the cause of world peace. As we know people and understand them our prejudices and suspicions are removed. We learn they are human just like ourselves; that they have high ideals and are inspired by lofty motives; that they love the things we love, and hate the unclean, the ugly, the vicious, just hate them. As we come to understand their problems, difficulties and aspirations, and they come to understand ours, mutual sympathy will develop, followed by a desire for co-operation, rather than antagonism.

It is only so, through mutual understanding, that permanent world peace can be maintained and the maximum of true progress be made.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Measuring Lightning Flash

No Part Of It Ever Lasts For Appreciable Time

A lightning flash takes about one-seven-thousandth of a second to complete itself and no part of it lasts more than approximately one-thirty-five-hundredth of a second. This is the first time in history that the speed of a lightning flash has been measured. It has also been proved that lightning starts from the clouds and the ground at nearly the same instant, and approximately one-seven-thousandth of a second later the two ends unite in mid-air. These facts were determined by Dr. C. U. Boys, a British physicist, who has been attempting hundreds of photographs for the last twenty-six years, until a stroke of lightning in New York at last gave him this information.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACTOR. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes, Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACTOR. It does the work—and roots out the corn, quickly and without pain.

A Young Linguist

George Grando, 4, of Vader, Wash., is a linguist of ability. He speaks English or Croatian with equal facility. He was born in America, but his parents came from Dalmatia. He reads the letters of the alphabet in both English and Croatian, can count to 20 in both languages, and converses freely.

RHEUMATIC PAINS

Cannot Be Rubbed Out — The Trouble Must Be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but after all the rubbing the pain remained. Thin blood and rheumatism come together and if they are properly treated will go together. Anaemia means thin blood, and thin blood is something that can be corrected, so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the thin blood is built up, and when the poisons in the blood are overcome and driven out rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Novar, Ont., who says:—"For some years I was so badly troubled with rheumatism that I could hardly walk and suffered great pain. I had medical treatment but did not get much relief. Then I decided to try Dr. Williams' Pink Pills, and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

From July 11 to 17, 1911, 88.15 inches of rain fell at Baguio in the Philippine Islands. More than 45 inches fell on one day.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence who is infested with worms can take this preparation without a qualm of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

The Teacher—You have failed in geography again.

Bobbie—No'm. You only ast me did I know the capital of Minnesota an' I said I didn't which, was true.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Forty automobiles can be driven abreast at low tide on the beach of Jacksonville, Fla. The sand is as firm as on a paved street.

Neuralgia succumbs to Minard's Liniment.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symtoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

New Death Dealing Ray

Electrical Driver Recently Invented Develops Three Million Volts

H. H. Nelson-Smith, engineer on the staff of the Pacific Gas and Electric Company in San Francisco, said a "death ray" device had been invented by J. B. Martin, electrical engineer of San Francisco. The new device, he said, was capable of developing three million volts.

The Martin machine, Nelson-Smith stated, is housed "somewhere in San Francisco," but its exact whereabouts is being kept secret. The invention has been working in co-operation with the electric company.

"Anyone who got in the path of the ray would be instantly snuffed out, the chemical composition of his blood would be changed and the life cells disintegrated," he said.

Praises This Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

Life is a grindstone, and whether it grinds a man down or polishes him up depends on the kind of stuff he's made of.

No surgical operation is necessary in removing corns if Holloway's Corn remover be used.

Einstein should make a good train caller or bellhop, as nobody can understand what he is talking about.

Minard's Liniment relieves pain.

More than 50,000,000 rabbit skins are made into felt hats in the United States every year.

At 452 degrees below zero some metals, such as silver and copper, lose their resistance to electricity, becoming superconductors.

CENSURE MOTION IS DEFEATED BY MAJORITY OF 24

Ottawa.—The House of Commons defeated another want of confidence motion involving censure of the postmaster-general. This time the amendment, which, like its predecessor, was moved by H. A. Stewart, Conservative member for Leeds, was defeated by 24 votes.

It was a general amendemnt declaring that "the administration of the post office department by the present postmaster-general has been characterized by inefficiency, disregard of the provisions of the civil service act, the post office act and other statutory authority, and merits the disapproval of this House." Mr. Stewart's former amendment, moved a few days ago, involved censure of the postmaster-general in connection with the appointment of a postmaster at Simcoe, Ont., it was defeated by 27 votes.

In the division today, the Conservatives carried with them in support of the amendment the majority of members of the U.F.A. group in the House, Liberals and Liberal-Progressives united in opposition to the amendment.

Votes recorded in favor of the amendment numbered 68, and against, 92.

In moving his amendment Mr. Stewart said facts had been brought out which had startled the country. The whole background of the matter was the civil service commission and the attitude of the postmaster thereto. From October 1, 1926, to February 1, 1928, the postmaster-general has dismissed 98 postmasters, and from February, 1928, to April, 1929, eight more dismissals had been made.

In 32 cases of appointments by the commission, rejections had been made by Mr. Veniot. In some cases returned soldiers had been rejected in favor of civilians. He had dismissed for petty shortages men and women of the postal department all over Canada, but in the case of an inspector who it was shown had taken funds improperly, Mr. Veniot had not only increased his salary, but had given him an higher responsibility in office. The postmaster-general had impaired the efficiency of the civil service commission, and his attitude toward its was akin to contempt.

In reply, Mr. Veniot declared Mr. Stewart had omitted to point out in what way his administration was inefficient, or in what manner he had violated the civil service or any other act.

It was charged, he added, that he had disregarded certificates issued by the civil service commission. That was correct. But he had done so only for valid reasons, and was given authority to do so under the act. He had only done his duty, said the postmaster-general, as head of the postal service of Canada.

There had been charges which questioned his loyalty. These were unjust, Mr. Veniot said.

Need Coal Agreement

Geneva.—The economic committee of the League of Nations, which has made exhaustive investigation of the world crisis in the coal industry, reported that international agreements between producers concerning output and markets must be made if there is to be hope for improvement. A similar conclusion was recently reached by experts on the sugar situation.

Loyalty Of Acadians

Ottawa, Ont.—In replying to the criticisms levelled against him in the House of Commons, Hon. Peter Veniot, in a spirited speech dwelt on the loyalty of the Acadians of which he was one, to the British crown. He did so, he said, because his loyalty had been attacked by certain newspapers.

Hughes Goes To Geneva

New York. — Charles Evans Hughes, former secretary of state, sailed on the "Mauretania" en route to Geneva to take up his duties as judge of the world court, May 15.

W. N. U. 1784

Rioting In Berlin

Communists Suffer Casualties In May Day Battle

Berlin. — Communists in an attempt to "conquer the streets" for May Day, caused an ugly riot in the working class quarter in northern Berlin. They created barricades, using street repair material, and held off police with rifle and pistol fire until armored cars forced the obstructions and enabled the authorities to clear out the surrounding houses.

At midnight the casualties for the day had mounted to eight dead and 78 seriously wounded. Hundreds of others suffered bruises from missiles or policemen's clubs.

The rioters erected barricades in the main thoroughfare of the Pankstrasse and its side streets. The police charged them repeatedly with batons until the commanding officer realized that his force was too weak for these tactics and ordered his men to open fire. Then armored cars were brought up by the police and finally captured the barricade.

Opening Canadian Legation In Tokio

Hon. Herbert Marler Will Take Up Duties As Minister

Ottawa, Ont.—It has been announced from the department of external affairs that Hon. Herbert Marler, before undertaking his duties as Canadian minister to Japan, is making a short visit to England. In the meantime, arrangements are being made for opening the Canadian legation in Tokyo. Mr. Hugh L. Keenleyside will be appointed first secretary and Charge D'Affaires until Mr. Marler's arrival in Japan, and James A. Langley, Canadian trade commissioner in Japan, will also act as commercial secretary of the legation. A third appointment will be made during the summer.

Dr. Keenleyside was born in Toronto, but has resided from an early age in Vancouver. He is a graduate of the University of British Columbia and of Clark University. Iyemasa Tokugawa has been appointed by the Japanese government as its representative at Ottawa.

Canadian Press Meeting

Officers Are Elected At Annual Gathering In Toronto

Toronto.—The annual meetings of the board of directors and the members of the Canadian Press, the co-operative news association of the daily newspapers of Canada, extended over three days, were concluded by the election of officers for the year as follows:

Honorary president, E. Norman Smith, Ottawa Journal; president, John Scott, managing director of the Toronto Mail and Empire; first vice-president, M. E. Nichols, Winnipeg Tribune; second vice-president Henri Gagnon, Quebec Le Soleil.

J. F. B. Livesay, continues as general manager and secretary.

With a view to giving increased representation to the French language, daily newspapers of Quebec and also to the western provinces, the annual meeting enlarged the board of directors from 15 to 21.

Italian Arrested For Killing Chancellor

Assassinates Official When Application For Documents Was Refused

Brussels, Belgium.—While walking along a street, Alfonso Arena, chancellor of the Italian legation in Luxembourg, was shot and killed.

His assailant, who was arrested, was an Italian cobbler, named Gino, 29 years of age, a native of Massa Carrara, who recently settled in Luxembuorg. He had applied to the legation for certain documents, but his application was refused.

Punished For Native's Death

Pretoria, South Africa.—For the first time in many years a white farmer was flogged for injuring a native. Jack Nafte, who tied a native employee head downward by the legs from a tree and lashed him so severely that he subsequently died, was sentenced to seven years at hard labor and the farmer received ten lashes in the Pretoria jail.

WESTERN PILOT

Louisa Burka, a student with Great Western Airways, Ltd., is believed to be the first woman pilot in Western Canada to take a passenger up in an aeroplane.

Aviators Found Dead

Two Australians Meet Fate In Search For Lost Southern Cross

Sydney, N.S.W.—Suffering agony from thirst and exhausted by desperate efforts to take off from the ragged ground where they landed, Robert Hitchcock and Lieut. Keith Anderson of the aeroplane Kookaburra died some time either on or after April 12.

The grim story of the fate of the two men who had taken part in the search for the aeroplane Southern Cross, was revealed in the notes of a diary scrawled on the rudder of their 'plane.

First definite news of the death of the men came with the report from a land party that had made its way over the rough country to the stranded rescue 'plane.

Canoe Trip Across Canada

Two Montreal Youths Commence Journey From Vancouver

Vancouver. — Paul Paquin and Richard Lesage, two Montreal youths, started out recently on what they hope will be a canoe trip across Canada. Their 16-foot canoe was laden with camp equipment and supplies as they pushed off from the recreation pier at English Bay to the farewells of a crowd which had gathered to wish them "bon voyage."

The canoeists plan to travel up the Fraser River to Lytton and from there up the Thompson River to Sicamous, as the first part of their trip. They expect to reach Halifaxa in seven months.

Would Welcome Naval Reduction

Tokio.—It was learned here that Count N. Sako, Japanese delegate to the preparatory commission on disarmament at Geneva, had been instructed to agree to a proposal whereby a sub-committee would be formed by delegates from the five leading powers to consider proposals of the United States delegate, Hon. Hugh S. Gibson, for broad naval reduction.

Battle With Bandits

Detroit Policeman Shoots Assailants In Attempted Hold-Up In Ontario

London, Ont.—Shot in the stomach, Robert Schact, alleged bandit, aged 20, Windsor taxi driver, and formerly of Yorkton, Sask., died on the highway, following an attempted hold-up of D. McLellan, a Detroit policeman and his wife, who were motoring on a holiday. Leo Deroschers, 19, Ford City, Ont., was shot in the hip and lies in a London hospital under guard. A third bandit got away in the darkness.

On a crime cruise in a stolen car, Schact and his companions crowded McLellan's car into the ditch. Schact ordered the Detroit policeman to hand over his money. He picked the wrong man. McLellan for an answer ripped out a .32 revolver and fired twice from the hip. Schact dropped to the road mortally wounded, along with Derosches. The third bandit picked up Schact and half carrying him, vanished into the darkness.

Plan Second Air Derby

Winnipeg and St. Paul Will Stage Event This Month

St. Paul, Minn.—The second international air derby from St. Paul to Winnipeg was set for May 24 and 25. More than 25 planes are expected to enter this race, according to Julius Perit, aviation secretary of the St. Paul Association. The derby will be held in conjunction with the Canadian aviation meet and aircraft exhibition to be held in Winnipeg on the same dates.

The derby will leave St. Paul, May 24, and will arrive in Winnipeg the following day. The route is expected to take in Fargo and Grand Forks, N.D.

Announcement of the date of the derby was made following the visit to St. Paul of several members of the Winnipeg Flying Club on a good-will tour to arouse interest in their air carnival.

The first air derby from St. Paul was staged last May as a good-will tour to Winnipeg.

Canada Had Good Year

League Review Shows Dominion Enjoying Unprecedented Prosperity

Geneva.—"Canada enjoyed a year of unprecedented prosperity," says the Review of Economic Conditions in 1928, issued by the League of Nations, as a basis of the work of the consultive economic committee.

North America, the report continues, it seems probable was the continent where trade developed most rapidly. The United States not only maintained its position of the world's leading commercial country but increased its excess of exports over imports.

Postpones Long Flight

Berlin.—Captain Helmann Koehl, noted German trans-Atlantic flier, told the Associated Press that his projected flight to the United States with Col. James Fitzmaurice, could not be expected this year and possibly not for another two years.

Tynside Trainees

Immigrants from Great Britain arriving on board the Canadian Pacific Liner "Duchess of Richmond" at Saint John on that vessel's first voyage to Canada. The men, who hail from Tynside, have all been trained in Canadian farming methods under the British Minister of Labor, in co-operation with the Canadian Pacific Railway. They are destined for all parts of Canada.

FAVOR PRINCIPLE OF INSURANCE FOR UNEMPLOYED

Ottawa.—The principle of insurance against unemployment, sickness and invalidity is accepted and endorsed by the special committee of Parliament on industrial and international relations in a report presented by its chairman, Cameron R. MacIntosh, Liberal, North Battleford, in the House of Commons. The insurance should not be based on compulsory contributions derived from the state, employer and employees, the report states.

The report continues:

"Your committee recognizes that, while it is highly desirable that such legislation should be uniform in all the provinces, and while social insurance has a federal aspect, nevertheless, according to the department of justice, under our constitution legislative jurisdiction in relation to the establishment of a compulsory system of unemployment insurance is vested exclusively in the provincial legislatures.

"Your committee finds that the provinces, on being consulted by the department of labor with regard to their attitude towards the establishment of a general scheme, do not appear to be prepared to take immediate action.

"Under these circumstances, your committee submits the following recommendations:

"(a)—That with regard to sickness insurance, the department of pensions and national health be requested to initiate a comprehensive survey of the field of public health, with special reference to a national health program. In this, it is believed that it would be possible to secure the co-operation of the provincial and municipal health departments, as well as the organized medical profession.

"(b)—That in the forthcoming census, provision should be made for the securing of the fullest possible data regarding the extent of unemployment and sickness; and that this should be compiled and published at as early a date as possible.

"(c)—That the federal government be requested to bring the subject matter of this reference before the next federal-provincial conference; and your committee suggests, when the agenda for such a conference is arranged that the provincial governments be invited to send representatives of the employer and employee to discuss the subject matter of this report."

Prairies Not Represented

Have No Men On This Year's Bisley Team

Ottawa.—The personnel of the Canadian Bisley team has been announced from the office of the Dominion of Canada Rifle Association. There are five Toronto men on the team this year. Ottawa comes second with three, while Victoria and Vancouver have two each.

Five riflemen, including two from Hamilton, who won places on the team, have been unable to accept and the five next in order in the Bisley aggregate, fired during the D.C.R.A. matches last August, will go in their stead. The team sails from Montreal on the S.S. Montrose, on June 12 and will be inspected the day previous.

Those who made the team, but who found it impossible to accept, included Sergt. H. W. Burton, Victoria.

World's Largest Cattle Team

Harlowton, Mont.—The biggest cattle yoke ever made in the Northwest is too small for what is considered the largest cattle team in the world. That was the discovery made by Guy Howard after he completed a seven-foot yoke. Now he's engaged in making a 10-foot yoke which he believes will "fit" the team. The cattle together weigh 7,000 pounds.

Hon. R. B. Bennett Bereaved

Vancouver. — Mrs. H. Weldon Coates, wife of Dr. H. Weldon Coates, and sister of Hon. R. B. Bennett, leader of the Conservative party in Canada, died at her home here following a long illness.

DON'T MISS IT

ACTIVE BUILDING ON C.P.R. FROM ACME TO RED DEER

Construction operations have been commenced on the Acme-Red Deer section of the Canadian Pacific Railway. Fred Mannix, the well known railroad contractor has been awarded the contract. It is understood that the contract covers some twenty-five to thirty miles of construction and that the new line will be completed in record time. When Red Deer is connected up with Acme it will mean that the Canadian Pacific Railroad will have another line to the East from Edmonton via Red Deer, Acme, Drumheller, Rosemary, striking the main line at the latter point. This will mean that Carbon will be on this new main line, while Drumheller will be on the main lines of both the Canadian National and the Canadian Pacific Railways.

MOTORISTS HEAR OF ALBERTA'S BIG HIGHWAY PROGRAM

Heeding the motorists' cry for better roads, the provincial government will award contracts this week covering 168 miles of highways in various parts of the province. This is the first instalment of the program of road improvements this season.

A stretch of 47 miles from Winterburn to Seba beach, west if Edmonton, is on the program for this year. This will connect with the Stony Plain road now built, and be ready for gravelling next year.

Standard earth grading will be done for 36 miles on the Stettler road, from Lacombe east to Nevis. A 12 mile stretch northwest of Gleichen will also be graded.

The gravelling program includes 18 miles frim Inverlake west of Strathmore, to a point six miles east of Strathmore and 30 miles of first course gravelling between Lethbridge and New Dayton, on the final section of the Sunshine trail. Then there will be 25 miles of second course gravelling from Cardston to Waterton. It is expected that here will be about fifteen further lots of road contracts on the program for the summer and autumn.

A scotchman recently sued a baseball company because he was hurt while watching a ball game. He fell out of a tree.

NOTICE

IN THE MATTTR OF "The Public Utilities Act, 1923":
AND IN THE MATTER OF an application by James W. Baird; Celina Conlon; Jane Grenier; Josephat A. Grenier; Richard Heath; the Knee Hill Coal Company, Limited and others for the separation of certain parcels of land from the Village of Carbon, in accordance with the provisions of Part VI of The Public Utilities Act.

The above application having come on for hearing on Thursday, the second day of May, 1929, and from the facts disclosed at the hearing, it appearing that it is expedient that the Board should formulate a general plan dealing with lands, whether subdivided or not, and of any acreage other than that comprised in the application, and the Village of Carbon consenting thereto;

NOTICE IS HEREBY GIVEN that the Board of Public Utility Commissioners has appointed Tuesday, the 21st day of May, A.D. 1929, at the hour of 10.30 o'clock in the forenoon, at its offices, 716 McLeod Building, Edmonton, as the time and place for hearing all or any parties interested in regard to the formulation of such plan.

BOARD OF PUBLIC UTILITY COMMISSIONERS,
(Signed) G. A. THIBAULT,
Secretary

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
